2. A meeting of the members of the Committee was held on 22 March 1956. After due consideration, it was determined that due to the wide distribution and circulation of Agency Regulations and Notices, it would not be appropriate to announce to so many officials and employees throughout the Agency that accountings were being waived. Therefore, it was concluded that a memorandum addressed to the Deputy Directors concerned and to the Chairman of the Projects Review Committee, with a copy of the Staff Study attached would be more appropriate.

3. In accordance with the above stated conclusion, there is attached the proposed memorandum for signature of the Director. The memorandum has been informally cleared with Mr. [ ] Chief of Operations, DD/P.
